All our Print Grade films are available in various thicknesses with controlled dyne level to ensure excellent printability.

## FLEXIBLE: Static Cling / Decal Films

### STATIC CLING: Non-Top Coated

Hi-Tack and Pliable, Superior Clarity due to our Unique Formulation

**Printing: DUV, OUV, SUV & FUV**

Krome Kote: 10 PT

Conversion: *We convert Roll to Sheet for Custom Sizes.*

Composition: 100% Virgin Resin

Uses: Window Signage, Temporary Floor Graphics, POP Displays

**\*\*Phthalate Free Version Available on Custom Order Basis\*\***

**PVC Clear Gloss/Gloss Film: With DINP**

Available in .15 mm (.006") & .20 mm (.008") / Stock Widths

**PVC White Opaque Gloss/Gloss : With DINP**

Available in .20 mm (.008") / Stock Widths

**PVC Colored Gloss/Gloss Film: Meets CPSIA**

Available in .25 mm (.010") / Stock Widths

### DECAL FILMS: Excellent Printability and Superb Adhesion Properties

Gloss/Gloss in Clear and Colors

**Printing: OUV, DUV & SUV**

Conversion: *We convert Roll to Sheet for Custom Sizes.*

Composition: 100% Virgin Resin

Uses: Window Signage, Temporary Floor Graphics, POP Displays, Motorcycle and Vehicle Decals

## LARGE FORMAT PRINT SHEETS & TIPPING: For Rigid and Flexible Films

**Size:** 4FT by 8FT and Larger / Maximum 51" Width – Any Length Available

**Tolerance:** -0 / +1" Length Rough Cut
