## Static Cling

**NON-Top Coated**  
**Hi-Tack • Hi-Clarity • Pliable**

Excellent Printability and Ink Adhesion for Digital, UV Offset or Silkscreen Printing.

Superior Clarity due to our unique formulation and calender configuration.

Easy Surface Adhesion to smooth gloss surfaces (glass, metal or plastic) and removes without residue.

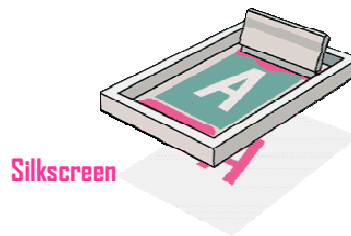

Pliable and retains color, shape and cling even through handling.

Only produced to order for premium results.

**STORAGE & CONDITIONING:** Improper storage can result in loss of flexibility and poor material performance. Pre-emptive laminating can shorten shelf-life and conditioning is critical for ideal results.

**Our product is only made to order, but if stocking your material, we recommend doing so for a maximum of 60 days and only under the following conditions:**

- 50% relative humidity
- Ambient temperatures between 70<sup>o</sup> to 72<sup>o</sup>F (20 to 22<sup>o</sup>C)
- Also recommended: letting material rest for a *minimum of 48 hours on a clean, smooth surface prior to printing.*
